

Rose Watch Daily Report

Francis Roses · IP monitoring & evidence-management system

As of: 2026-09-17 06:03 MST (America/Phoenix) — evidence and findings below reflect the state of each site at the time it was checked.

Report generated: 2026-09-17 08:48 MST

Monitoring Run Summary

No new potential infringement findings were identified during this monitoring run.

(2 listings did match an active trademark name and are held for review — the reason no case was opened is stated with the findings below. Nothing has been discarded.)

All 16 known reseller companies (18 URLs) on the closed crawl roster were attempted, of which 13 served a catalog. Product catalogs were pulled directly from each accessible site's own product data feed (Shopify's product API or the WordPress REST API) and checked against the Master Trademark Filing Chart. 2 listings matched an active trademark name this run, but none were carried into a case record — see the note below the findings table for why. 153 previously existing cases were re-verified still present in their site's current catalog. Per current reporting policy, this PDF itemizes matches against **Registered** trademarks only, since those are the only marks currently enforceable; Pending-trademark matches are still fully recorded with complete evidence in the case database and dashboard.

New Findings (Registered Trademarks Only)

No new case records were created on this date.

2 additional listings matched an active (Registered or Pending) trademark name during this run's catalog comparison across the remaining sites, but have not yet been assigned case numbers or full evidence records. Both matches are at Redland Ranch Roses and both are false positives on inspection: the products are a peony (*Paeonia lactiflora* 'Monsieur Jules Elie', which shares the single word "Monsieur" with a Pending chart entry) and a heuchera (Dolce(R) Wildberry Heuchera, sharing the word "Wildberry"). Neither product is a rose, so neither is evidence of unauthorized rose sales, and opening a case would record a known false positive as a potential finding. They are reported here instead so the check is on the record, and are put to the user for a decision. None of these are lost: they remain identified and available to convert into cases.

Access & Research Limitations

Company	URL	Limitation
Bloomora Roses	https://www.facebook.com/profile.php?id=61591662794131	Facebook page; facebook.com is blocked by this environment's network egress policy at the CONNECT stage, so the page was never reached. No open product feed exists for a Facebook page in any case. Unchanged limitation since the site was added 2026-09-15.
Ergonzy / Ergonzi (www.etsy.com)	https://www.etsy.com/shop/Ergongzi	Etsy storefront; etsy.com is blocked by this environment's network egress policy at the CONNECT stage. The seller's own site (ergongzy.com) was crawled in full and carries the same catalog.
Flower Meadow Dream	https://www.myroseworld.com/	Not reached. Both www.myroseworld.com and myroseworld.com were refused by this environment's egress proxy at the CONNECT stage (403 to CONNECT on all four host/platform combinations), so the request never reached the seller's server. Retried once mid-run with the same result. This is our own network policy, not a block by the site. The site's 3 existing cases (MYROSEWORL-001..003) could not be re-verified today and keep their 2026-09-16 Last Verified date.
GCM Ranch	https://www.etsy.com/shop/GcmRanch	Etsy shop closed (dormant). Roster entry retained per user instruction (2026-09-15); expected to stay inaccessible and not awaiting any decision.
Jessie's Roses (www.etsy.com)	https://www.etsy.com/shop/JessiesRoseUSA	Etsy storefront; etsy.com is blocked by this environment's network egress policy at the CONNECT stage.

Screenshot capture: Still no case has a screenshot on file -- same network-proxy limitation as prior runs (headless Chromium cannot complete a connection through this environment's egress proxy). Explained to the user in chat on 2026-09-14; awaiting their choice of approach (manual capture vs. Wayback Machine vs. environment-level fix).

Dashboard

The Rose Watch dashboard (Overview, Trademarks, Cases, Known Sites, Needs Review, Data Sources) was updated to reflect this run.

Dashboard: <https://claude.ai/code/artifact/16e0d5da-a772-4f6c-81b7-80697febeeb1>

Rose Watch's work is investigative research, not a legal determination. A matching product or trademark name is a potential lead that must be reviewed by Francis Roses or legal counsel before any action is taken.

Case History

156 cases on record to date: **34** against Registered trademarks and **122** against Pending. The full case-by-case history, with product URLs, evidence and review status, is on the dashboard rather than repeated in each day's report.

Dashboard: <https://claude.ai/code/artifact/16e0d5da-a772-4f6c-81b7-80697febeeb1>
