

Rose Watch Daily Report

Francis Roses · IP monitoring & evidence-management system

As of: 2026-09-10 16:10 MST (America/Phoenix) — evidence and findings below reflect the state of each site at the time it was checked.

Report generated: 2026-09-10 16:16 MST

Monitoring Run Summary

This is Rose Watch's first monitoring pass under the current system. All 14 known reseller sites (16 URLs) on the closed crawl roster were attempted. Product catalogs were pulled directly from each accessible site's own product data feed (Shopify's product API, Squarespace's collection data, or the WordPress REST API) and checked against the Master Trademark Filing Chart. Two matches were carried through into full, evidence-complete case records as an initial format sample; the remaining matched listings are being held, at the user's direction, pending a decision on how to process them into cases.

New Findings (Case Records)

Each row below is a potential lead for Francis Roses or legal counsel to review — a matching product or trademark name, not a legal determination of infringement.

Case #	Rose Name	Seller	Domain	Seller Location	Website Host	TM Status
HILLSIDERO-001	Whitby Abbey	Hillside Rose Farm	hillsiderosefarm.com	California, United States (site-stated "Southern California")	Shopify, Inc. (behind Cloudflare)	Pending
HILLSIDERO-002	Cappuccino	Hillside Rose Farm	hillsiderosefarm.com	California, United States (site-stated "Southern California")	Shopify, Inc. (behind Cloudflare)	Pending

HILLSIDERO-001 direct product URL: <https://hillsiderosefarm.com/products/whitby-abbey-%E6%83%A0%E7%89%B9%E6%AF%94%E4%BF%AE%E9%81%93%E9%99%A2-netherlands>

HILLSIDERO-002 direct product URL: <https://hillsiderosefarm.com/products/cappuccino-%E5%8D%A1%E5%B8%83%E5%A5%87%E8%AF%BA>

154 additional listings matched an active (Registered or Pending) trademark name during this run's catalog comparison across the remaining sites, but have not yet been assigned case numbers or full evidence records — this is on hold pending the user's decision on how to process them (full cases for all, a lighter-evidence pass, or a further staged rollout). None of these are lost: they remain identified and available to convert into cases.

Access & Research Limitations

Company	URL	Limitation
Ergonzy / Ergonzi (Etsy)	https://www.etsy.com/shop/Ergongzi	Etsy blocked direct access (HTTP 403, bot/access detection) on the sibling Etsy shops checked this run; not independently re-verified for this specific shop.
GCM Ranch	https://www.etsy.com/shop/GcmRanch	Etsy blocked direct access (HTTP 403). Known-sites notes indicate this shop closed and now redirects to kisakiplant.com, which is monitored separately as its own site -- awaiting user confirmation before treating that redirect as in-scope.
Jessie's Roses	https://www.jessiesrose.com/	Site is password-protected (Shopify storefront access gate) -- product catalog could not be accessed.
Jessie's Roses (Etsy)	https://www.etsy.com/shop/JessiesRoseUSA	Etsy blocked direct access (HTTP 403, bot/access detection).

Screenshot capture: Full-page screenshots could not be captured for any listing this run: the session's headless browser (Playwright/Chromium) cannot complete a connection through this environment's network egress proxy (the connection resets mid-handshake), even though direct page fetch and text verification succeed for accessible sites. Evidence text (titles, prices, descriptions) was independently verified directly against live pages instead.

Dashboard

The Rose Watch dashboard (Overview, Trademarks, Cases, Known Sites, Needs Review, Data Sources) was updated to reflect this run.

Rose Watch's work is investigative research, not a legal determination. A matching product or trademark name is a potential lead that must be reviewed by Francis Roses or legal counsel before any action is taken.
