Rose Watch Daily Report

Francis Roses · IP monitoring & evidence-management system

As of: 2026-11-04 06:22 MST (America/Phoenix) — evidence and findings below reflect the state of each site at the time it was checked.

Report generated: 2026-11-04 06:25 MST

Monitoring Run Summary

All 20 known reseller companies (22 URLs) on the closed crawl roster were attempted, of which 16 served a catalog. Product catalogs were pulled directly from each accessible site's own product data feed (Shopify's product API or the WordPress REST API) and checked against the Master Trademark Filing Chart. 52 matches were carried through into full, evidence-complete case records this run. 449 previously existing cases were re-verified still present in their site's current catalog. Product titles are matched against **every** name in the Master Trademark Filing Chart, not only the Registered and Pending ones, and findings are listed below grouped by status with the most enforceable first. A match against a To Be Filed, Abandoned, Not Applicable, Do Not File or unstatused entry is recorded so it is tracked, and carries no enforceable right.

20 / 20 Websites checked	**16 / 22** URLs accessible	**10,323** Product pages reviewed	**6** Sites/pages not fully accessible
0 New Registered findings (cases)	**1** New Pending findings (cases)	**51** New cases, other chart statuses	**0** Possible matches held for review

Dashboard

The Rose Watch dashboard (Overview, Trademarks, Cases, Known Sites, Needs Review, Missing Status, Data Sources) was updated to reflect this run.
Dashboard: https://claude.ai/code/artifact/16e0d5da-a772-4f6c-81b7-80697febeeb1

New Findings

Every row below is a potential lead for Francis Roses or legal counsel to review — a matching product or trademark name, not a legal determination of infringement. Grouped by the trademark's status in the chart, most enforceable first: **Registered** and **Pending** marks carry weight that **To Be Filed**, **Abandoned**, **Not Applicable**, **Do Not File** and unstatused entries do not. Each finding is shown as an evidence card: the listing's screenshot where one could be captured, its identifying fields, the seller's product URL and the quoted text supporting the match. A card with no screenshot says why, and that is recorded as a coverage gap rather than a clean result.

SELLER'S PRODUCT TITLE
Pacific Blue German Florist Shrub Rose

https://highgardenroses.com/products/pacific-blue-german-florist-shrub-rose

"This elegant rose features a rare soft lilac color with a darker center and petal backs. It blooms abundantly with a strong fragrance, and the flowers lighten to lavender as they open. The dark green foliage is resistant to powdery mildew and black spot. Also suitable for use as a cut flower."

Access & Research Limitations

Company	URL	Limitation
Bloomora Roses	https://www.facebook.com/profile.php?id=61591662794131	Facebook page; facebook.com is blocked by this environment's network egress policy at the CONNECT stage, so the page was never reached. No open product feed exists for a Facebook page in any case.
Commerce Farms	https://www.etsy.com/shop/CommerceFarms	Etsy storefront, added to the roster 2026-11-03. Etsy publishes no open product feed and etsy.com is unreachable from this environment (HTTP 403 at the proxy's CONNECT stage), so this seller cannot be crawled and is a standing coverage gap. Its five cases, COMMERCEFA-001..005, were built on 2026-11-03 from listing URLs and screenshots the user gathered by hand; they are not re-verified by this run and their Last Verified dates deliberately did not move.
Ergonzy / Ergonzi (www.etsy.com)	https://www.etsy.com/shop/Ergongzi	Etsy storefront; etsy.com is blocked by this environment's network egress policy at the CONNECT stage. The seller's own site (ergongzy.com) was crawled in full and carries the same catalog.
GCM Ranch	https://www.etsy.com/shop/GcmRanch	Etsy shop closed (dormant). Roster entry retained per user instruction (2026-09-15); expected to stay inaccessible and not awaiting any decision.
Jessie's Roses (www.etsy.com)	https://www.etsy.com/shop/JessiesRoseUSA	Etsy storefront; etsy.com is blocked by this environment's network egress policy at the CONNECT stage.
Winter Sonata (name taken from the page handle -- needs confirming)	https://www.facebook.com/winter.sonata.594800/	Facebook page, added to the roster 2026-11-03. No product feed exists and facebook.com is unreachable from this environment (HTTP 403 at the proxy's CONNECT stage), so this seller cannot be crawled and is a standing coverage gap. The company name is read off the page handle and is NOT confirmed.

Screenshot capture: 403 of 461 cases carry a screenshot, including 45 of the 52 created today. The 58 without one each record why: High Garden 52 (8 Registered) -- the seller's pages blank themselves on detecting an automated browser, so these need manual capture and the measure was not bypassed; One Love 3 (1 Registered) -- a membership login wall, also not bypassed; Flower Meadow Dream 3 -- listings removed, HTTP 404.

Rose Watch's work is investigative research, not a legal determination. A matching product or trademark name is a potential lead that must be reviewed by Francis Roses or legal counsel before any action is taken.
