Monitoring Run Summary

No new potential infringement findings were identified during this monitoring run.

All 14 known reseller sites (16 URLs) on the closed crawl roster were attempted. Product catalogs were pulled directly from each accessible site's own product data feed (Shopify's product API, Squarespace's collection data, or the WordPress REST API) and checked against the Master Trademark Filing Chart. No new matches against the active trademark list were found this run. 153 previously existing cases were re-verified still present in their site's current catalog. Per current reporting policy, this PDF itemizes matches against **Registered** trademarks only, since those are the only marks currently enforceable; Pending-trademark matches are still fully recorded with complete evidence in the case database and dashboard.

Access & Research Limitations

Company	URL	Limitation
Ergonzy / Ergonzi (Etsy)	https://www.etsy.com/shop/Ergongzi	Etsy blocked direct access (HTTP 403, bot/access detection) -- re-checked today, unchanged from 2026-09-10.
Flower Meadow Dream	https://www.myroseworld.com/	Could not be re-checked today: the site's collection API now resolves through the www subdomain (301 redirect from the apex domain), which was blocked by this session's network egress policy this run. Existing MYROSEWORL-001/002/003 cases were left untouched (Last Verified not updated) rather than guessed at.
GCM Ranch	https://www.etsy.com/shop/GcmRanch	Etsy blocked direct access (HTTP 403). Known-sites notes indicate this shop closed and now redirects to kisakiplant.com, which is monitored separately as its own site -- still awaiting user decision on how to record this (deferred by the user to today, 2026-09-14, to be asked in chat).
Jessie's Roses	https://www.jessiesrose.com/	Site is still password-protected (Shopify storefront access gate) -- re-checked today, unchanged from 2026-09-10.
Jessie's Roses (Etsy)	https://www.etsy.com/shop/JessiesRoseUSA	Etsy blocked direct access (HTTP 403, bot/access detection) -- re-checked today, unchanged from 2026-09-10.

Screenshot capture: Still no case has a screenshot on file. This session's headless browser (Playwright/Chromium) cannot complete a connection through this environment's network egress proxy (connection resets mid-handshake), even though direct page fetch/text verification succeeds for accessible sites. Discussed with the user today per the 2026-09-10 deferral.

Dashboard

The Rose Watch dashboard (Overview, Trademarks, Cases, Known Sites, Needs Review, Data Sources) was updated to reflect this run.

Rose Watch's work is investigative research, not a legal determination. A matching product or trademark name is a potential lead that must be reviewed by Francis Roses or legal counsel before any action is taken.
