

Rose Watch Daily Report

Francis Roses · IP monitoring & evidence-management system

As of: 2026-09-25 06:07 MST (America/Phoenix) — evidence and findings below reflect the state of each site at the time it was checked.

Report generated: 2026-09-25 06:10 MST

Monitoring Run Summary

No new potential infringement findings were identified during this monitoring run.

All 17 known reseller companies (19 URLs) on the closed crawl roster were attempted, of which 13 served a catalog. Product catalogs were pulled directly from each accessible site's own product data feed (Shopify's product API or the WordPress REST API) and checked against the Master Trademark Filing Chart. No new matches against the trademark chart were found this run. 285 previously existing cases were re-verified still present in their site's current catalog. Product titles are matched against **every** name in the Master Trademark Filing Chart, not only the Registered and Pending ones, and findings are listed below grouped by status with the most enforceable first. A match against a To Be Filed, Abandoned, Not Applicable, Do Not File or unstatused entry is recorded so it is tracked, and carries no enforceable right.

Dashboard

The Rose Watch dashboard (Overview, Trademarks, Cases, Known Sites, Needs Review, Missing Status, Data Sources) was updated to reflect this run.

Dashboard: <https://claude.ai/code/artifact/16e0d5da-a772-4f6c-81b7-80697febeeb1>

New Findings

Every row below is a potential lead for Francis Roses or legal counsel to review — a matching product or trademark name, not a legal determination of infringement. Grouped by the trademark's status in the chart, most enforceable first: **Registered** and **Pending** marks carry weight that **To Be Filed**, **Abandoned**, **Not Applicable**, **Do Not File** and unstatused entries do not. Click “View listing” to open the seller's product page.

No new case records were created on this date.

321 cases on record to date: **39** against Registered trademarks and **138** against Pending. The dashboard carries the complete history, including Pending cases, with evidence and review status.

All Cases on Record

Every case on record to date, not just today's, in the same order: Registered and Pending first, then the statuses that carry no enforceable right. The dashboard holds the full evidence for each.

Registered — 39 cases

Access & Research Limitations

Company	URL	Limitation
Bloomora Roses	https://www.facebook.com/profile.php?id=61591662794131	Facebook page; facebook.com is blocked by this environment's network egress policy at the CONNECT stage, so the page was never reached. No open product feed exists for a Facebook page in any case.
Ergonzy / Ergonzi (www.etsy.com)	https://www.etsy.com/shop/Ergongzi	Etsy storefront; etsy.com is blocked by this environment's network egress policy at the CONNECT stage. The seller's own site (ergongzy.com) was crawled in full and carries the same catalog.
Flower Meadow Dream	https://www.myroseworld.com/	Not reached. Both www.myroseworld.com and myroseworld.com were refused by this environment's egress proxy at the CONNECT stage, so the request never reached the seller's server. This is our own network policy, not a block by the site. Unchanged since 2026-09-16. The site's 3 existing cases (MYROSEWORL-001..003) could not be re-verified and keep their 2026-09-16 Last Verified date.
GCM Ranch	https://www.etsy.com/shop/GcmRanch	Etsy shop closed (dormant). Roster entry retained per user instruction (2026-09-15); expected to stay inaccessible and not awaiting any decision.
Jessie's Roses (www.etsy.com)	https://www.etsy.com/shop/JessiesRoseUSA	Etsy storefront; etsy.com is blocked by this environment's network egress policy at the CONNECT stage.
Your Roses	https://your-roses.com/	STILL BLOCKED, eight days on (first seen 2026-09-18), and the root flipped a third time: it answers HTTP 200 again today, after 403 yesterday and 200 on 2026-09-21 through 2026-09-23. The catalog has never once opened -- 403 from the seller's LiteSpeed/Hostinger firewall on /wp-json/wp/v2/product, 404 on the Shopify feed path, every single day. The CONNECT still succeeds, so this remains the site refusing us, not our egress proxy. No attempt was made to work around it. Its 33 cases (YOURROSES-001..033) still hold their 2026-09-17 Last Verified date -- eight days unverified, reported as unchecked and never as clean. The root now reads as noise rather than signal: it has moved three times while the catalog rule has not moved at all. Due back to the user with options on Monday 2026-09-28.

Screenshot capture: Still no case has a screenshot on file -- same network-proxy limitation as prior runs (headless Chromium cannot complete a connection through this environment's egress proxy). Explained to the user in chat on 2026-09-14; awaiting their choice of approach (manual capture vs. Wayback Machine vs. environment-level fix).

Rose Watch's work is investigative research, not a legal determination. A matching product or trademark name is a potential lead that must be reviewed by Francis Roses or legal counsel before any action is taken.
