

Rose Watch Daily Report

Francis Roses · IP monitoring & evidence-management system

As of: 2026-09-16 06:03 MST (America/Phoenix) — evidence and findings below reflect the state of each site at the time it was checked.

Report generated: 2026-09-16 08:20 MST

Monitoring Run Summary

No new potential infringement findings were identified during this monitoring run.

All 15 known reseller companies (17 URLs) on the closed crawl roster were attempted, of which 12 served a catalog. Product catalogs were pulled directly from each accessible site's own product data feed (Shopify's product API or the WordPress REST API) and checked against the Master Trademark Filing Chart. No new matches against the active trademark list were found this run. 153 previously existing cases were re-verified still present in their site's current catalog. Per current reporting policy, this PDF itemizes matches against **Registered** trademarks only, since those are the only marks currently enforceable; Pending-trademark matches are still fully recorded with complete evidence in the case database and dashboard.

New Findings (Registered Trademarks Only)

No new case records were created on this date.

Access & Research Limitations

Company	URL	Limitation
Bloomora Roses	https://www.facebook.com/profile.php?id=61591662794131	Facebook is unreachable from this environment (egress policy denies the CONNECT before the request reaches Facebook). No variety names have been supplied for this seller yet, so nothing could be checked against the trademark chart.
Ergonzy / Ergonzi (www.etsy.com)	https://www.etsy.com/shop/Ergongzi	no open product feed; not crawlable from here
Flower Meadow Dream	https://www.myroseworld.com/	Apex myroseworld.com returns 301 to the www subdomain, which the egress proxy refuses -- unchanged from 2026-09-14 and 2026-09-15. Existing MYROSEWORL cases left untouched.
GCM Ranch	https://www.etsy.com/shop/GcmRanch	Etsy shop closed (dormant). Per user decision 2026-09-15: kept as its own roster entry, not merged with Kisaki Plant's entry or case sequence -- see CLAUDE.md.
Jessie's Roses (www.etsy.com)	https://www.etsy.com/shop/JessiesRoseUSA	Product feed reachable at the apex domain this run and returned zero products -- the store has no public listings, consistent with the known-sites note 'no products on website or Etsy'. A follow-up storefront fetch returned HTTP 429, which was rate-limiting caused by our own crawl, not a site block.

Screenshot capture: Still no case has a screenshot on file -- same network-proxy limitation as prior runs (headless Chromium cannot complete a connection through this environment's egress proxy). Explained to the user in chat on 2026-09-14; awaiting their choice of approach (manual capture vs. Wayback Machine vs. environment-level fix).

Dashboard

The Rose Watch dashboard (Overview, Trademarks, Cases, Known Sites, Needs Review, Data Sources) was updated to reflect this run.

Dashboard: <https://claude.ai/code/artifact/16e0d5da-a772-4f6c-81b7-80697febeeb1>

Rose Watch's work is investigative research, not a legal determination. A matching product or trademark name is a potential lead that must be reviewed by Francis Roses or legal counsel before any action is taken.

All Past Findings (Registered Trademarks)

Every Registered-trademark case on record to date, not just today's, split into sections by the month each was first found. Pending-trademark cases are omitted here too, consistent with this report's Registered-only policy -- see the dashboard for the complete history including Pending.
